## Growing, Loving, Serving

Build a home. You can either draw one on construction paper and put it on your windows for all to see. Or build a home out of sticks, mud, leaves, etc. Or maybe you have Lincoln logs or legos to build a home out of. Build a home someone would be happy to live in.

## Sacred Space

Homelessness is the discussion for this week. Grab a couple nails. There are some nice blunt head nails that are used for crafts that you can use. As you come to the table each day with your family to pray, bless each other with water, take the nail in your hands and say a thank you to God for sending Jesus. Jesus was put on the cross with nails. Each day by coming to our sacred spaces we build our faith up.
