Growing, Loving, Serving

Make a water droplet out of construction paper! Then, write on the droplet things you are thankful for! Now, hang it up on your front door for everyone to see!

Don't forget to tell Kelsey you've participated so she can come by and take photos!

Sacred Space

This week, as we talk about water, I want you to bring some Holy water to your sacred space. Bring any water in a shallow bowl, filled halfway. And say a prayer and blessing for the water: God, move within this water as you move within us to share your love with others. Now, each week, dip your finger and make the sign of the cross on another family members forehead saying: You are a child of God.
