Growing, Loving, Serving

Draw bread and a cup, communion, on construction paper. Draw, color, and then cut them out and put them on your window, reminding yourself and all those who see it, that God feeds us and fills us.

Please remember to let Kelsey know that you are participating so she can drive by and take photos to show off your drawings!

We Are Family

Sacred Space

Make bread together as a family. Once the bread is made, gather around your sacred space and share this bread with each other. Before you break the bread, pray over the bread and over all those who may not have enough food to be filled. Break it and give a piece to a family member, reminding them that God feeds and fills us.
